

VISTA METALS CORP

June 23, 2010

Press Release

For Immediate Release

(Fontana, Ca)

Vista Metals Corp announced today that Dwayne Gordon and Stan Kowaleski have joined the Vista Metals Corp's sales team. Dwayne will fill the position of Director of Cast Plate Sales. Stan will join Vista as Regional Sales Manager. Together they will direct the sales and marketing of Vista's cast aluminum tooling plate and cast aluminum mold products.

Vista's Executive Vice President, Robert Praefke stated, "Both Dwayne and Stan bring specific expertise in sales and marketing of our specialized products. Dwayne is a 25 year veteran of the metals industry, most recently serving as National Sales Manager of cast plate products for Alpase, Inc.. Stan brings over 25 years in the cast plate and manufacturing industries, most recently serving as Regional Sales Manager for Alpase, Inc. Together they bring vast knowledge of the aluminum plate industry, applications, and the diverse manufacturing processes that our products service. Their broad based expertise will be invaluable as we pursue our business goals."

Praefke also announced that industry veteran Tara Kaulback will remain with Vista Metals in her ongoing sales and marketing efforts. Since Vista's purchase of the assets of Pechiney Cast Products from Alcan four years ago Kaulback has been instrumental in introducing and committing Vista's cast plate products to a varied marketplace. Praefke shared, "Tara has worked tirelessly over the last four years. Her efforts and expertise have been invaluable in the marketing of our cast plate products and brand." Tara will consult with Vista Metals on both day-to-day activities and strategic initiatives.

Vista Metals Corp is the global leader in specialty aluminum products. Along with its cast plate offerings, Vista produces aluminum billet for both the hard and soft alloy extrusion industry, cast and scalped billet for the forging industry, and slab for rolling applications. (www.vistametals.com)
